Narrative: The fire was reported by a private aircraft as 4 structures and trees actively burning. Lead A-2 was dispatched, confirmed the structures were lost and the fire was burning in grass and brush. Other structures in the area were not immediately threatened. A mechanical issue prevented the smokejumpers from responding. Tanker 46 was used to effectively box in the perimeter by dropping water. Other resources were not available at this time due to the hour of day. The owner was notified and flew in. Helitack will be sent to look in the morning.

	Narrative: Tazlina and Northway mopped up the bowl from H-20 to H-25. One squad worked Desper Creek north to H-60. The Infracam flew as requested, and is expected to fly again in the morning. N365AL was available for cargo and recon. There were limited smokes on the fire's interior. Two Type 1 and one Type 2 crew was demobed. The released of numerous resources including one 204 helicopter, a six wheeler, one water tender and various personnel occurred. Remaining resources continued mop up and gridding. Fire activity was limited to scattered smokes in isolated areas. Interior mop up will be required to prevent reburn potential with the expected warming weather. Transition to a Type 3 organization will occur 5/22 at 2100.
