 # 210 Name: **Sheenjek River** Cause: **Lightning** Admin: **YFR**
 Narrative: Dry gusty winds predominantly from the east tested lines on the western perimeter. Secured oxbows within the Porcupine and Sheenjek River corridors still hold fire in large stands of spruce and these can potentially spot across. Active runs in grass and brush pushed by steady wind from the east. Spruce stands continue to candle and produce short runs. Two Type 1 crews moved into northwest corner to extend direct line and establish spike camps. Crews have reinforced southern perimeter and areas adjacent to cabins and allotments. Reinforcement of the northeast corner was conducted to halt further movement up the Sheenjek River corridor. The CI-215's were highly effective in supporting suppression efforts along the western fire perimeter. 283 personnel assigned.

Assigned Crews:

Allakaket #1	Type 2	Assigned:	6/15
Chenas	Type 1		6/15
Denali	Type 1		6/13
Ft Yukon #1	Type 2		6/14
