Narrative: Drought-like conditions with no expected precipitation in the forecast will increase the potential fire growth in the northern sections of the fire. Falling water levels in the Sheenjek and Porcupine Rivers are hampering crew movement by boat. Crews continue to mop up and secure established fire lines around cabins and allotments. Burnout operations continue in northeast corner of the fire supported by aerial resources (helicopters with buckets and CL-215's). One Type 1 crew released due to days off.
