Narrative: The continuation of drought-like conditions with no expected precipitation in the forecast will increase the fire growth in the northern sections of the fire. Falling water levels in the Sheenjek and Porcupine Rivers continue hampering crew movement with boats. Crews continue to mop up and secure established fire lines around cabins and allotments. The team monitored the northeast corner of the fire and cabins north along the Sheenjek River. Assisted Fire 338 with the use of one medium and one light helicopter. Denali, Chena, and Northstar crews are all on days off in Fairbanks. 139 personnel remain in the fire.

Crews worked late attempting to get hoselays in place to hold the line. Two more Type 2 crews are assigned and will be mobed to fire in AM. One Type 1 IHC has been ordered as well as a pool of miscellaneous overhead and a Type 2 helicopter. The fire is currently staffed by 35 personnel.
