Narrative: Falling water levels in the Sheenjek and Porcupine Rivers continue hampering crew movement with boats. The return of crews from days off will ensure continued monitoring of critical southern and western perimeter containment lines. Isolated single tree torching of black spruce within interior of fire. Backing surface fire with 2-3 foot flame lengths along NE perimeter in stands of black spruce, creeping fire through meadows and previous burn along northern perimeter. Crews continued to mop-up and secure established fire lines around cabins and allotments. Monitored NE corner of the fire and cabins along the Sheenjek River. Completed preparation of cabin site with sprinkler kit approximately six miles north of fire. Backhaul at helispots. 157 personnel are on this fire.
