PDBZ6G Legal: 3s 33e 13 F Out Date: Owner: **NCA**
452 Name: **Boundary Creek** Cause: **Lightning** Admin: **Doyon**

Narrative: Unpredictable winds and erratic fire behavior forced crews to withdraw from the line in Division A where burnout operations were taking place. A spot fire across the line Division B caused resources to be concentrated in an effort to suppress. Relatively dry fuels, difficult access and steep terrain continue to hamper containment efforts. Communications are still an area of concern due to the terrain. The fire grew significantly to the south, east, and west with smoldering, creeping, torching, running, and spotting behaviors observed. During the next operational period crews will continue to burn-out, mop-up and catch all slop-overs and spots. Given the predicted winds, the fire has high growth potential. Eighty-eight personnel are staffing the fire.
