PDBZ6G Legal: 3s 33e 13 F Out Date: Owner: **NCA**
#452 Name: **Boundary Creek** Cause: **Lightning** Admin: **Doyon**
Narrative: Due to limited resources the fire spread into the upper east portion of Quartz Creek. Until the additional resources arrive, containment will be difficult. Relatively dry fuels, difficult access and steep terrain are adding to the difficulty. Proximity to high resource values are the primary concern. Crews will continue to provide structure protection for the cabins at the mouth of Boundary Creek. They will work to keep the fire to the south of Boundary Creek by constructing saw-line and burning out. Construction of indirect dozer-line on the ridge to the west side of Quartz Creek will be implemented.

 Narrative: Firing continued to tie in sloughs and small lakes. CL-215s and two helicopters with buckets worked hot spots near Kolomin Lake and along the drainage to the southeast. The CL-215s also dropped water to keep the fire from crossing on to Caribou Island in Tustumena Lake. For most of the day there was a good southwest flow. Later on in the evening the west and southwest flanks of the fire experienced an east wind off the glaciers which made it to smokey to continue firing operations on that part of the fire. Currently, there are 74 personnel staffing the fire.
