Narrative: Increasing fire activity is predicted tomorrow with winds out of the northeast. The fire could push toward the Talor Highway with several structures threatened. Spots north of Boundary Creek interior to the ridgetop dozer line will be difficult to secure without burning out the drainage. Favorable weather conditions will be necessary to conduct burnout operations to secure the north flank of the fire. Line burnout may begin tomorrow. Dozer and sawline were completed today in preparation for burnout operations. Crews will continue to improve line and prepare for burnout operations. The line from the Yukon River to H-15 was mopped up and secured today. Crews will continue to mop-up direct line and improve indirect line, in preparation, for burnout operations. Structures and Native allotments along the Taylor highway will be prepared for possible fire tomorrow. The Fire has burned approximately 2000 acres (1.5 miles) in to Canada in addition to 10000 acres in the United States. No additional growth today. 236 personnel assigned.
