Narrative: The fire was flown by zone surveillance in N309VS. The fire was smoldering in mixed spruce and hardwoods with occasional torching. Most of the heat is on the east end in thicker spruce. The west end of the fire has pushed to the old burn and stopped about one acre into the old black. There is no significant change in perimeter. The skies were overcast with light winds, 2-3 mph, out of the east. The fire remains in monitor status.

 Narrative: The fire was monitored by zone surveillance in N309VS. The west end was running to the west in black spruce and has moved about four miles to the west since it was last mapped. The east side was smoldering in mixed hardwoods. It was 15% active and had moved .25 miles toward the east. On the south side the fire was backing toward the airstrip along the Big Salt River. It was backing down into the willows and seems to be stopping there. The north side was creeping in black spruce with no significant change in the perimeter.
