Narrative: The fire was reported by the Tanana Zone on 8/11. It was on the east side of the Toklat River, 1.5 miles north of an old burn (possibly 256). The fire was approximately 250 acres, and the heavy smoke prevented a concise size up. 9VS updated coordinates and gave a 200-500 acre estimate, due to limited visibility. It was creeping east in mixed spruce and hardwoods. The dense smoke on 8/12 prevented flight of the fire.

Narrative: Traffic on the Taylor highway was impacted as the fire bumped the road between mile 131 and 139. Road guards were in place to monitor traffic. Fire behavior increased with the warmer temperatures, and lower RH. The fire was running in the black spruce, 10-15 chains per hour with 40-50 foot flame lengths, into Dome Creek. Flanking fire: individual tree torching and 4-7 foot flame lengths on the surface fuels. Helicopter 230 was released after assisting with the demobilization of the Mission Creek fire. Firing operations around allotments were completed. Rehabilitation efforts continue. 4WW was able to recon the southern end of Boundary and the helicopter module was placed in Dome creek to conduct firing operation and structure protection. Smith Creek fire was mapped. Crews will continue to mop up the allotment on the Taylor Highway. Structure protection and mop up will continue on the structures on Dome Creek. Rehabilitation will continue on the northern end of Boundary. All pumps and hose were removed from the Eagle Structure Group. The fire is expected to clean out unburned fuel pockets along the Taylor highway. Fire behavior on the Taylor highway should diminish after the next shift. It is expected to continue to bump Dome Creek, possibly cross and burn into last year's fire. (+1600 acres). 63 personnel are assigned to this fire.
