Narrative: A second fold-a-tank was established at the highway below the left flank. A hoselay and line work began on the left side. This was tied around to the anchorpoint and base on the right flank, up to a cliff face where burning material had been rolling down to near the highway, working west. A 4-5 acre spot fire across the right flank was suppressed with bucket work from a helicopter. A helispot was established high on the right flank, to move crews and gear. They will strengthen the line and mop up the area of the spot, access to this area is otherwise quite a steep hike uphill. 350R was used for 6 hours with a bucket to assist crews on the left flank. The size of this fire is now estimated at 95 acres.
