 # 163 Name: **Tamarack - Parks Highway** Cause: **Human** Admin:

Narrative: Strong winds from the South and East caused extreme fire behavior. The fire bumped up to the Tanana River and threatened structures in the Tonsona Subdivision. It is 1 and 1/2 miles south of the Nenana Airport. No structures have been lost. The Parks Highway was closed down for several hours. Fire personnel evacuated residents for 14 miles along the Parks and an evacuation center is set up at the Nenana School. The Red Cross and the Troopers also assisted with the evacuation. The Alaska Railroad passenger train was able to go through the area before a wind switch. Burn out operations are planned for later during this shift to secure the Eastern side of the fire from Tonsona Road south. Traffic is being piloted through the hazardous portions of the highway. A citation was issued. Acreage is estimated at 15,000 acres.

Narrative: Recent rain has diminished fire activity significantly. Numerous smokes and hot spots still exist, especially in the spruce and birch along the river corridor. Tundra and grass fuels show very little activity and no spread. The planned burn-out at the allotment can not proceed until fine fuels dry out some. The load of SMKJs were demobed in the afternoon. Equipment for the burn-out remains in place.
