# 214 Name: **Paddle Creek** Cause: **Lightning** Admin: **NOD**

Narrative: Arctic Circle Air reported this fire 15 miles northeast of Circle City, on Paddle Creek. It plotted in a Modified Protection Management area and smokejumpers were requested to respond. The fire was 15 acres, 30% active, 1 - 3 ft. flame lengths, burning in black spruce, birch and brush. There were light northerly winds over the fire. After being on the fire 2 hours, the wind picked up and the fire tripled in size. The jumpers pulled back, secured their gear and waited for evening temperatures to drop and relative humidities to raise before continuing the attack.

Narrative: Fire activity was minimized with the presence of light to moderate widespread precipitation and associated higher relative humidities. The fire remains within 1/4 mile of the cabins and allotments near the mouth of the Wood River, however, has not crossed to the East side of the Wood River in Div. E. Smokejumpers and crews continued to work cabins and allotments in the area and mop up the fire's edge. Mop up continued in Div. Q and T after a morning IR flight revealed a few areas of heat. Div. A, B, C, and D are looking good along the Parks Highway corridor and East of the Nenana airstrip where gridding continued with no significant heat reported. Containment increased to 60% from 45%. Divisions A,B,C,D: Engines and a crew will patrol for smokes and mitigate hazard trees near residences as needed, as well as continue to mop up and rehab. One TFLD and an engine from a Division will be designated for initial attack. Division E: Monitor fire activity along the Tanana and Wood Rivers near cabins. Crews mop up directly on the edge of the fire between the Tatlanika and Tanana Rivers. 5 crews will be assigned to the division along with the jumpers.
