Narrative: Fire activity increased today with the presence of clear skies, lower relative humidities, and steady winds. The fire remains within 1/4 mile of the cabins and allotments near the mouth of the Wood River, however, has not crossed to the East side of the Wood River in Div. E. Smokejumpers broke down apparatus and did rehab. Crews continued to work cabins and allotments in the area and mop the edge of the fire while securing timber values. An active Southernly run was observed this afternoon on the South side of Div. E between Tatlanika Creek and the old Fish Creek burn area with a column visible from the Parks Highway. Div. A, B, C, and D reported some smoke, which was spotted from the Highway between Milepost 293 and 295, and was later worked by a crew. The area East of the Nenana airstrip continues to look good where gridding continued with no significant heat reported. Divisions Q, T, Y, and Z were unstaffed. All three Type 1 IHCs (Denali, Chena, and Tazlina) assigned to the fire were released for days off and re-assignment. Divisions A, B, C, D: Engines and a crew will patrol for smokes and mitigate hazard trees near residences as needed, as well as continue to mop up and rehab. An engine from one of the Divisions will be designated for initial attack. Division E: Monitor fire activity along the Tanana and Wood Rivers near cabins. Protect timber values. Crews will mop up directly on the edge of the fire between the Tatlanika and Tanana Rivers securing allotments. Two crews will be assigned to the division. Divisions Q, T, Y, and Z: Unstaffed. Staffing numbers reflect personnel that worked on fire today. Crews demobed toward end of shift.
