Narrative: Widespread showers kept fire activity at a minimum with rainfall totals ranging from 0.1" at the south end of the fire, near Anderson, and heavier amounts around 0.25" on the North side near Nenana. The fire remains within 1/4 mile of the cabins and allotments near the mouth of the Wood River, however, has not crossed to the East side of the Wood River. All unnecessary equipment has been removed from allotments and cabins. The Pioneer Peak crew demobed and the Salcha crew arrived at the incident. Engines and a crew continued patrolling for heat to the east of the Nenana airstrip and throughout the Parks Highway corridor. No significant heat or smokes were found. The Tanana River continues to run high, impacting the safety of camp and transportation operations. Dozer line rehab work continues. Engines and crews will continue to patrol for smokes and mitigate hazard trees near residences, as well as continue to mop up and rehab.

Assigned Crews:

Nenana	Type 2	Assigned: 6/21
