<b>CN5N</b>	Lat: <b>64:22:00</b>	Status: <b>S/U</b>	Acres: <b>115,500.0</b>	Option: <b>CRITICAL</b>

Narrative: Cloud cover and high relative humidity kept fire activity at a minimum. The fire remains within 1/4 mile of the cabins and allotments near the mouth of the Wood River, however, has not crossed to the East side of the Wood River. Unnecessary equipment has been removed from allotments and cabins on the division. A crew and remaining overhead continued to work cabins and allotments in the area and mop up the edge of the fire while securing timber values. The Parks Highway corridor and East of the Nenana airstrip has no significant heat reported. Work continues on the rehab of dozer lines. There is low to moderate potential for further growth to the East and South, toward the Wood River. Engines and a crew will patrol for smokes and mitigate hazard trees near residences as needed, as well as continue to mop up and rehab. Along the Tanana and Wood Rivers, cabins and allotments are being monitored and secured, and personnel continue protecting timber values. There will be numerous overhead, supply, and equipment backhaul demobing from Anderson 7/2 in anticipation of moving the ICP and Base of Operations back to Fairbanks Area Forestry on 7/3.

Assigned Crews:

Nenana	Type 2	Assigned:	6/21
Salcha	Type 2		6/30
