Narrative: At 1138 a commercial aircraft reported a fire at 20 miles north by northwest of Fort Yukon. Smokejumpers responded and upon arrival reported the fire to be 5 acres in size burning in black spruce. The fire was 80% active with extreme running, torching and spotting. Air attack and two air tankers were ordered, jumpers were deployed and a request was made for a second load of jumpers. Air attack arrived at 1407 and determined the fire to be 40-50 acres, 80% active with fifty foot flame lengths and spotting. Tankers arrived at 1430 and began operations. Helicopter 68CQ arrived at 1440 and began bucket work. A second load of jumpers was ordered which then arrived to the fire at 1600. By 1631 the fire had grown to approximately 120 acres and was receiving a light rain. Three crews were ordered and crew shuttles began at 1815 from Fort Yukon and Venetie via two medium helicopters. At 2200 the IC reported a 25% containment and estimated the fire to be at 140 acres. There were no threats to surrounding resources. Due to the light rain, tanker drops and helicopter bucket work the fire was starting to lay down. Current resources on the fire include 16 smokejumpers, 3 type 2 crews, 1 light helicopter and 2 medium helicopters.

Narrative: Fire was reported as a cabin fire at 0445 this morning. The railroad had reported the fire to local 911, who dispatched VFD despite the fire being outside of the service area. VFD's were unable to locate the fire. Forestry engine M-31 w/Anacleto +3 responded to fire at 0925 this morning. M-31 was able to meet railroad personnell who guided them to the fire. The cabin was burnt to the ground, and fire was smoldering in the surrounding wildlands. AST was requested to fire for report of fatality, none was found. Cause of fire is suspicious, and will be investigated further. Origin of fire was determined to be the cabin. Fire is on monitor status.
