# 221 Name: **Christian River** Cause: **Lightning** Admin: **Venetie**

Narrative: The fire is 140 acres, 80% contained and there are no critical resources needs at this time. The fire was creeping and smoldering with light rain over the area through the morning and early afternoon. Firefighters completed saw-line around the main fire and contained numerous spot fires. The Yukon type 2 IA crew arrived on the fire in the afternoon and the Tazlina type 1 crew was waiting to be shuttled to the fire. Tomorrow, crews will continue to secure the perimeter using pumps and hose lays and search for spot fires using an infracam. Containment is estimated by the end of shift. Fire behavior is expected to be low tomorrow given the current perimeter containment, but helicopters will be standing by for the potential of extreme fire behavior given red flag conditions and numerous spot fires.
