164 Name: **Mooseheart** Cause: **Lightning** Admin: **L&W**

Narrative: The fire was reported at two acres, by zone aircraft 4MN, burning in Black Spruce and mixed hardwoods. It plotted in a limited management protection option on State land. The fire was within two miles of full protection around Mooseheart Lake. One load of smokejumpers, air attack, and one air tanker were requested for the fire due to the proximity of structures and allotments. Eight smokejumpers and two loads of retardant were dropped on the fire. Strong winds and extreme fire behavior caused the fire to grow rapidly and the decision was made to disengage. Helicopter 954 transported the smokejumpers and gear to Mooseheart Lake to assess structures and allotments for protection.
