 # 216 Name: **Marten Creek** Cause: **Lightning** Admin: **Venetie**

Narrative: The fire continued to creep and smolder in black spruce and mixed hardwood slash. Smokejumpers were able to achieve 75% containment on the fire. There are no readily available water sources so mop-up is expected to be heavy. One type 1 and one type 2 crews were mobilized and arrived at the fire this evening. Crews will continue to secure the perimeter tonight and plan to grid the fire and begin mop-up tomorrow. Demobilization of 16 smokejumpers will begin on 6/7.

Narrative: There was a dramatic shift in fire behavior since the previous report. The fire made a three and a half mile run, crossing the Cosna River, and increasing by more than 2,000 acres. The unexpected fire behavior caused a shift in plans from demob to site specific protection. Three type one crews conducted firing operations around allotments west of the Cosna River and south of the Tanana River. Smokejumpers were deployed to Mooseheart Lake to conduct burnout operations around a structure. Tomorrow, crews will continue firing operations around structures and allotments at the confluence of the Tanana and Cosna Rivers. Aerial firing operations will commence along a slough south of the Tanana River. Crews will continue mopping up and securing existing control lines and the Northstar type two crew will be transported to the fire.
