## Unstaffed - AFS

---

AA75                      Lat: **64:50:15**                      Status: **RX**                      Acres: **25.0**                      Option: **PRESCRIB**  
                                 Lon: **147:36:52**                      Start Date: 3/17/09                      Area: **MIL**  
                                 Legal:                      Out Date:                      Owner:  
# A75                      Name: **Ft. Wainwright Debris Piles R**                      Cause: Prescribed                      Admin:

Narrative: Two Alaska Fire Service personnel checked the pile which was still smoldering. It had burned down during the night, but smoke may remain visible throughout the day as the ash pits and stumps continue to smolder. The area remained secure and surrounded by snow.

## Unstaffed - DOF

---

ET6F                      Lat: **62:20:46**                      Status: **U/U**                      Acres: **0.1**                      Option: **LIMITED**  
904002                      Lon: **153:27:31**                      Start Date: 3/15/09                      Area: **SWS**  
                                 Legal: 26N 23W 13 S                      Out Date:                      Owner: **BLM**  
# 002                      Name: **SWS#1**                      Cause: Human                      Admin: **AND**

Narrative: BLM ADO C-206 N32PX overflow the fire at 1100 today & reported no smokes visible. The fire remains in monitor status & is in standing dead spruce. It appears as though some one may have attempted to extinguish the fire (close to the Iditarod Trail) or there was residual heat from the fire, as bare ground is showing & there has been fresh snow since the fire started. McGrath B-1 USGS Topo Map.
