 # 347 Name: **Rock Slough** Cause: **Lightning** Admin: **YFR**

Narrative: Smokejumper para-cargo aircraft N112BH delivered a zodiac boat package to the fire in the morning. The zodiac was used to facilitate the positioning of fire personnel, equipment and supplies to key positions along Rock Slough to aid in allotment protection. Crews continued to cut saw line along allotment boundaries and began to set up pumps and hose lays. The arrival of a type 1 crew helped to further production of this. Zone surveillance aircraft N9011N flew the fire at 1800 and reported a significant increase in fire size and activity. One load of smokejumpers was ordered for hand line work in an area southwest of the head of the fire in section 24. Smokejumper aircraft N117BH responded and deployed eight smokejumpers in an area adjacent to allotment number one. An attempt was made to shuttle the jumpers into the area of section 24 via helicopters however, fire behavior prevented that attempt. A reassessment of strategies will take place in the morning.
