Narrative: The fire was flown by zone surveillance in aircraft N5035E at 1935. They reported it as 6275 acres, 10 percent active, smoldering, running and torching in a spruce mix. Flame lengths were 4 feet with a rate of spread estimated at 6-8 feet per hour. The fire was rapidly approaching the river with potential to cross it. As a consequence of this, Air Attack and 2 scoopers were deployed to knock the fire down. The fire will remain in monitor status. A digitized map created from the surveillance flight shows the acres burned to date as 6243.6 (+63.6).
