Narrative: (305170 ac. State; 21191 ac. Toghoththele; 11359 ac. BLM)  
Extreme fire behavior was observed from the NE corner of the fire down the Eastern flank, where high winds caused spotting up to 1/2 mile. A burnout was conducted to protect values on the Tanana River. An additional crew deployed in the AM to protect structures along the Teklanika River. Dune Lake resources continued structure protection and conducted a burnout. Smokejumpers were deployed to Totek Lake and began assessing structures for protection needs. The Kantishna River Fire (AFS-Tanana Zone-#155) crossed to the East side of the Toklat River and entered an area within the Railbelt Complex MMA. Resources at Dune Lake will continue burning out to protect values around the lake. Resources at Totek Lake will deploy structure protection and prepare for a burnout. An order was placed for a Type 2 IMT and filled with Tony Doty's Alaska Type 2 IMT (Black), they will transition at end of shift 7/29.  
Acreage from fire 312 is included as the fires burned together. (+12802)
