**Crazy Mounta** Narrative: At 0800 command of the fire was transferred to the Alaska Type 2 team (Kurth) and included within the Crazy Mountain Complex. Extreme fire behavior, erratic winds and heavy fuels limited firefighting efforts. Running, group torching, and spotting up to 1/4 mile were observed. Dust devils and erratic winds hampered control efforts, and flame lengths from 50'-100' were observed. The fire made significant runs and crossed the Steese Highway encroaching upon the town of Circle City. Resources initiated firing operations around structures along the Steese Highway and dozer line fire breaks around Circle City. Poor visibility prevented three air tankers (CL-215's) from attempting to deliver water over the area of the fire. One additional load of smokejumpers was delivered to Circle City airport to help support firing operations. All personnel are reported on the Crazy Mountain Complex.

Narrative: (State / 414,291 ac - NCA / 24,157 ac. <16,000 + gain> BLM Ownership was changed due to pending conversion.) W/NW winds at 3-5 gusting to 10 mph with temperatures 65-75 created ROS of 2 Ch/Hr with 5-7 foot flame lengths in all fuel types. Moderate fire behavior was visible on the South, North and East flanks due to smoke inversion. The West flank displayed a backing fire with 1-3 foot flame lengths and a ROS>1 Ch/Hr. Crews completed Burnout Operations around Totek Lake. Personnel continued to mop-up 300' around structures at Dune Lake. Div E/G resources continued to construct direct line from the North and South to keep the fire from impacting Timber resources in the Tochaket Slough. A new Division was created to manage a large spot fire directly East of the Arctic Wolf Drill site. Direct attack activities will continue in Division E, G, H and I. Containment of spot fires along the Teklanika River and the slop over in Div H will continue to be priority. Boats will continue to patrol the Tanana, Nenana and Teklanika for spot fires. Indirect activities along the W and NW flanks include boat patrol and aerial firing.
