A burnout to protect property near H-40 was initiated in the evening. Crews mopped-up and secured the perimeter around allotments and continued structure assessment and protection at Mucha Lake. Air-Attack and CL-215's were utilized over the fire to assist with fire suppression. Structure protection is planned on structures around East Twin Lake and personnel will continue to mop-up around two allotments on the northern end of the fire. Hotter and drier weather with gusty and erratic winds from the northwest are predicted for the forthcoming week. Aerial resources continue to play a vital role in operations due to the size of the fire and the distance between values at risk. (+17036 acres)
