Owner: NCA 
# 291 Name: Medfra Cause: Lightning Admin: DOYON 
Narrative: The fire was reported by N7695S, located across the river from Medfra at the confluence of the South Fork and North Fork of the Kuskokwim River. Helicopter N509EH with a helitack load responded. The fire is 0.5 acres in spruce. IC Trefon + 5 will remain on the fire overnight.

FE3C
Lat: 63:20:08 Status: S/U Acres: 1.5 Option: FULL 
013288 Lon: 142:33:34 Personnel: 3 Start Date: 5/30/10 Area: TAS 
Legal: 18N 15E 16 C Out Date: 
Owner: NCA 
# 288 Name: Tetlin Boundary Cause: Lightning Admin: TETLI 
Narrative: The fire was reported by ASTpersonnel at approximately 17:00 as a lightning strike approximately 2 miles south of 4 mile lake. Forestry responded with Helitack on 212HL, and 2 engines. Personnel called in the size up and started bucket operations. 212HL personnel called for the Canadian Rappel team to respond to the scene. 3 crew members rappelled to the fire and started suppression operations, with support from both GWWL and 212HL bucket operations. The 3 crew members will remain on the fire overnight and resume suppression operations in the morning.

FE3C
Lat: 61:32:17 Status: Out Acres: 0.1 Option: CRITICAL 
001287 Lon: 149:04:12 Start Date: 5/30/10 Area: MSS 
Legal: 17N 2E 17 S Out Date: 5/30/10 Owner: PRI 
# 287 Name: Dancer Cause: Human Admin: 
Narrative: Palmer 911 reported a small brush fire. Forestry and VFDs responded. Upon Forestry’s arrival fire was out.
Palmer 911 reported a wild fire caused by a downed power line. Forestry and VFDs responded to
the location. While waiting for MEA to arrive on location to turn the power off, Forestry was
diverted to a higher priority fire. Forestry returned to the fire, no heat or smoke was found. The fire
was suppressed by local VFDs. The fire was called out.

A camper near Healy Lake reported a lighting strike which grew into a fire. Helitack aboard
N16973 was dispatched. The fire was sized-up at 50-100 acres and very active. Retardant, air
attack, jumpers, and CL 215`s were ordered. Helitack concentrated on structure protection.
Incoming IHC crews Plumas and Tahoes were spiked at DAF for transport in the morning to replace
SMJs. The fire was hit hard and long with retardant and water with the expectation of aiding ground
forces with containment.

City Dispatch reported a 20 x 20 smoldering fire located in the area of last years Brock Rd Fire.
VFD/DOF responded and found a 10 x 15 patch smoldering. Suppression action was taken and the
fire was placed in monitor status.

Palmer 911 called and reported an out of control brush fire that was threatening the tree line.
Forestry responded with two engines and prevention. Forestry and local VFDs suppressed the fire.
The fire was placed in monitor status.

This fire was reported as a tree on a power line. DOF engines responded and discovered a 30 X50`
fire burning in black spruce and birch. There was no active flame but the fire was burning deep. A
hand crew was used to help mop-up. The fire was contained/controlled at 1346. The fire was placed
in monitor status.

Smokejumpers continued structure protection. Burning along the perimeter of Osie`s cabin was
planned for the evening. Heavy smoke hindered supply orders coming out to the fire.
**Cascaden Ridge**

**Start Date:** 5/27/10  
**Acres:** 12,000.0  
**Option:** FULL  
**Cause:** Lightning  
**Admin:** BLM  
**Status:** S/U  
**Legal:** 7N 7W 21 F  
**Out Date:**  
**Lon:** 148:59:37  
**Lat:** 65:24:48  
**7N 7W 21 F**  
**Name:**  

**Assigned Crews:**
- Eldorado  
- Lassen  
- Smith River

**Narrative:**

Fire behavior was moderate with isolated torching, small runs with crowning, and some aggressive backing fire. Three Type 1 crews arrived to assist with site protection operations. Control lines were 3/4ths complete around the Brown subdivision. The increase in acreage is a rough estimate from the fire and an IR flight is scheduled to provide a more accurate perimeter. (+ 2,420.8 acres).

---

**Chitanatala**

**Start Date:** 5/26/10  
**Acres:** 13,538.0  
**Option:** LIMITED  
**Cause:** Lightning  
**Admin:** L&W  
**Status:** S/U  
**Legal:** 64:45:22  
**Out Date:**  
**Lon:** 151:46:23  
**Lat:** 11N 20W 29 F  
**Personnel:** 59

**Assigned Crews:**
- Diamond Mountain  
- Midnight Sun

**Narrative:**

Smokey conditions over the fire prevented zone surveillance from mapping the fire. It was making runs to the southwest, and exhibited extreme fire behavior when a thunder cell passed over the area. Smokejumpers and hotshots conducted burnout operations on the NW corner of the Buffalo Ranch. An additional load of smokejumpers was deployed to assist with operations and some paracargo supplies were received. Personnel will continue burnout operations to secure homestites tomorrow.

---

**Applegate**

**Start Date:** 5/26/10  
**Acres:** 12,000.0  
**Option:** MODIFIED  
**Cause:** Lightning  
**Admin:** L&W  
**Status:** S/C  
**Legal:** 65:12:01  
**Out Date:**  
**Lon:** 149:59:52  
**Lat:** 4N 12W 4 F  
**Personnel:** 30

**Assigned Crews:**
- Allakaket  
- Hughes Camp

**Narrative:**

Very erratic and extreme fire behavior was observed. The fire has crossed the Elliott Highway in multiple locations. One of the spots that crossed the highway was knocked down by retardant and another spot near the junction of the highway and Eureka road was approximately 100 acres. The fire has burned around some sites, no structures have been damaged. The fire has transitioned to a Type 3 Incident. Slop-overs on the Elliott Highway will be assessed and structure protection around Eureka and site protection along the Elliott Highway will continue. (+5000).

---

**Sucker River**

**Start Date:** 5/20/10  
**Acres:** 397.0  
**Option:** CRITICAL  
**Cause:** Human  
**Admin:** Gwitchyaazh

** Assigned Crews:**
- Arctic Village  
- Venetie

**Narrative:**

Arctic Village and Venetie crews continued to conduct cold-trailing operations. Zone helicopter N36PF was released from the fire. Plans were made for all remaining personnel to be demobilized on 5/31. The fire was placed in monitor status.
There were observed runs in various locations south of the fire. Runs through black spruce with flame lengths to 75 feet, column climbing to 10,000 feet were reported. Long range spotting ahead of the fire up to ¾ mile was seen. Flanking in other areas was reported with low to moderate spread. Extreme fire behavior was observed until 0100 hours. The column over the south end of the fire built and collapsed several times, accelerating fire growth. The Snake River crew was inserted into a residence west of the Bearpaw River. Chena and Denali held burn out operations on the East and West side of Mucha Lake with severe wind shifts and speed for cabin protection. Personnel continued to hold burn operations near a cabin southeast of the fire area along the Kantishna River. Plans are to continue to secure and mop up near structures and an allotment 7 miles south of the mouth of the Toklat. MODIS heat was incorporated into the fire size estimate since smoke obscures much of the southwestern end where rapid growth has taken place. Growth has occurred over the last few days.

**Staffed - DOF**

Plans are to continue to secure and mop up near structures and an allotment 7 miles south of the mouth of the Toklat. MODIS heat was incorporated into the fire size estimate since smoke obscures much of the southwestern end where rapid growth has taken place. Growth has occurred over the last few days.
Crews continued to mop-up and secure the line from the Alaska Hwy north along the Tanacross Road and around the community of Tanacross. Crews continue to mop-up along the dozer line from the Alaska Hwy south in the Eagle Trail area and continue constructing line in the southeast corner working up the west flank towards the Alaska Hwy. Work continues to secure structures in the Crystal Springs area and the Eagle Subdivision and keep the Alaska Hwy open. Increased fire behavior across the Tanana River from the village raised concerns. Firefighters remain in place, no fire was found in the village. The fire is 15% contained.

### Assigned Crews:

- **Hooper Bay**: T2
- **Prineville IHC**: T1
- **Redmond IHC**: T1
- **Rogue River**: T1
- **Ruby**: T2
- **Tanana #2**: T2
- **Upper Tanana**: T2
- **Upper Tanana**: T2
- **Upper Tanana #1**: T2
- **Vale IHC**: T1
- **Warm Springs**: T1
- **Winema**: T1
- **Wolf Creek IHC**: T1
- **Yukon**: T2A
- **Zig Zag IHC**: T1

### Narrative:

The fire was flown and mapped today and is currently estimated at 1955 acres. Dozers began constructing line on the west side of the fire and preparations are being made for burn out operations. Plans are to continue to construct dozer line on the west side of the fire following up with crew in preparation for burn-out operations. An IHC crew is expected to arrive 5/31 and they will construct line in steeper terrain. The fire exhibited creeping, backing and torching today with 80 degree temperatures, an RH of 23 and winds gusting to 15 mph. The fire is 0% contained. (+1755)

### Assigned Crews:

- **Marshall**: T2
- **Upper Kalskag**: T2

### Narrative:

Resources gridded the fire and broke down hoses lays. The fire is 100% contained and control targets are expected to be met 5/31. Fire personnel will grid the fire again and if no heat or smoke is found they will break down the camp for demobilization.

### Assigned Crews:

- **Tiakaan**: T2A

### Narrative:

Extreme fire behavior with columns to 15,000 feet were observed today. A backing crown fire was observed on the banks of the Kuskokwim River. Flame lengths of 20 feet were observed in dwarf birch. Cabin protection was completed at two sites and 1 additional site was evaluated. Land status was incorrectly reported as BLM, ownership belongs to State. (+5220)

- **Status:** U/U
- **Acres:** 800.0
- **Option:** LIMITED
- **Area:** TAD
- **Owner:** BLM
- **Admin:** NOD
- **Cause:** Lightning
- **Narrative:** On 5/29 Denali NPS personnel in helicopter N58191 flew the fire. It was 70 to 80 percent active in mixed trees, grass and tundra. The fire was very active with intermittent crowning and group torching on the north east flank, where fuel was the heaviest, with 5 to 8 foot flame-lengths. The fire has a high potential for growth and remains in monitor status.
The fire was flown on 5/29 by Denali NPS personnel in helicopter N58191 and observed as being 80-90 percent active in mixed trees with isolated group torching and a moderate rate of spread. The fire has a high potential for growth and remains in monitor status.

The fire was last flown on 5/31/2010 and was reported to be 700 acres in size. The fire remains in monitor status.

Personnel on surveillance aircraft N114MN observed numerous interior smokes with a five percent active perimeter. There was no increase in acreage, and the fire will continue to be monitored.

The fire was last flown on 5/29/2010 and was approximately 500 acres in size. The fire will continue to remain in monitor status.

The fire was last flown on 5/29/2010 and was approximately 3 acres in size. The fire will continue to remain in monitor status.

The fire was last flown on 5/27. It remains in monitor status.

The fire was last flown on 5/29 by zone surveillance aircraft N9011N. Surveillance personnel did not see any smoke in the area and the fire remains in monitor status.
