# 655 Name: **Seymour** Cause: **Human** Admin: **TNF**

Narrative: The Seymour Fire was reported by a pilot at 1126hrs. Due to the past few days of weather in Southeast Alaska there were no flights available till 1615 hrs. to get fire personnel on scene. Fire is burning in the Wilderness and authorization to use pump suppression was granted.

# 635 Name: **Canvasback Lake** Cause: **Lightning** Admin: **YFR**

Narrative: Smokejumpers were able to burnout a section of line from Canvasback Lake around a stand of spruce trees inside of which is located the FWS cabin. The burnout went well with a resulting 90% black line securing the area. Smokejumpers continued with mop-up operations around the perimeter of that black line. The fire had progressed further east and south working it's way down south around both sides of Canvasback Lake.

# 596 Name: **Tchulkade Lake** Cause: **Lightning** Admin: **YFR**

Narrative: Smokejumpers were able to acheive a good black line along the northeast side of allotment #1 and had it 65% mopped-up. At 1837 the fire was flown by zone surveillance aircraft N9011N. The fire was 40% active under northeast winds, 100% cloud cover and light rain. The fire was smoldering and backing to the north. The digitized fire perimeter was updated on 7/20 revealing an increase of +414 acres.

# 501 Name: **Pat Creek** Cause: **Lightning** Admin: **Doyon**

Narrative: Extensive blowdown is prolonging mop-up efforts. The current weather pattern has delayed crews from achieving good black line around values at risk. Observed fire behavior included smoldering with single and group tree torching. The North Star crew and a few overhead personnel were demobilized. Remaining crews pulled and backhauled hose from secured sections of line. The overhead is planning to transition the fire to a Type 4 organization on 7/26. 95% of all values at risk have been mitigated. The remaining values at risk are planned for and are ready to be black-lined if weather conditions allow.  
Digitized fire perimeter was updated on 7/18 revealing an increase of +3019 acres.
