**PDFK4J** Legal: 18N 6E 11 F Out Date: Owner: FWS  
#635 Name: **Canvasback Lake** Cause: Lightning Admin: YFR  
Narrative: At 1118 the fire was flown by zone surveillance aircraft N9011N. With southwest winds at 5-7 mph, the fire perimeter was 35% active with smoldering on the southwest corner between the FWS cabin and allotment #11. There was one area of heat located on the northeast corner burning in the southern most finger of that northeast corner. Active fire within 1/2 mile east of the allotment #11 gave management concern that a northeast wind may be cause to staff the allotment with smokejumpers for allotment protection.  
At 1524 the fire was again flown by zone surveillance. The active fire east of allotment #11 was backing to the west through an old burn towards the allotment. The fire was backing into the wind with 1`-2` flame lengths. One load of smokejumpers was ordered to build line on the east portion of the allotment to check the fires spread westward.  
At 1634 smokejumper aircraft Jump-17 arrived over the fire and began conducting jump operations. Eight smokejumpers were delivered to the area of the allotment and began preparations for allotment protection.
