#### [Delta Comple](#)

Narrative: Seven firefighters were dispatched to suppress the rekindle discovered during the previous operational period. The majority of the day was expended scouting the most efficient route for ATVs and hikers. The rekindle was reported as an acre creeping and smoldering in mixed hardwoods. Once on scene, personnel used hand tools and hose lays supported by a portable pump to control and extinguish any heat. It was planned to complete the extinguishment in this area and then to re-visit other known points of previously discovered heat within the fire perimeter. Monitoring will continue.
