Narrative: Warmer temperatures, lower RHs and thunder storms with erratic winds, steep terrain and limited access are hampering control efforts.

Intermittent crown fire observed in Washington Creek Area. Smoldering, creeping and single tree torching observed around the fire.

On the northeast flank crews are working to secure the fire`s edge along Washington Creek. Crews continue to make good progress on direct line construction north of the Chatanika River on the southeast flank. Crews on the west flank continue to build direct line toward Washington Creek. Equipment and supplies that are no longer needed for the fire are being returned.

Crews on the west flank will continue to build and secure line from H-20 west toward Washington Creek. Direct line will be constructed on the south flank north of the Chatanika River. Mop-up will continue on the northeast flank and West along Washington Creek. Fire activity increased on the northwest part of the fire near Washington Creek. The field delivered S420 will begin. A planning meeting as scheduled to discuss transition and demob of the fire.
