<b># 271</b>	Name: <b>Hastings</b>		Cause: <b>Unknown</b>	Admin: <b>L&amp;W</b>

Narrative: Thunderstorm, steep terrain and limited access are hampering control efforts. The fire behavior seen today in various locations was smoldering and creeping ground fire.

With the pattern of wet thunderstorms crews are going direct along all flanks. A helispot was established in Div. C at the western perimeter of the fire approximately half way up from Washington Creek for inserting crews. Work has been complete in Divs B, U and T so crews are being shifted to other divisions. Equipment and supplies that are no longer needed for the fire from other divisions are being removed. The Field deliverable session of S-420 continues.

Crews on the west flank will continue to build and secure line from H-20 north toward Washington Creek. Two crews will be flown to a new helispot (H-30) along the line half way up from Washington Creek to start building direct line up toward H-20 and down to the river. Mop-up will continue on the East flank and West along Washington Creek. Crews will do rehab on the cat line down to Washington Creek. Crews will continue to remove equipment along Chatanika River. S-420 class will finish on Thursday.

Narrative: The fire is 26% contained. The fire received significant precipitation, which helped meet control objectives long the northwest corner and southwest edge of the fire. Crews were moved to new spike camp locations to continue mop-up/control objectives along the lines. Demob has begun and there will be a transition to a Type 3 team on Friday. Actions planned for 6/16 are to work toward containment and mop-up objectives in Division Z.
