IC reported that the fire had received rain overnight, and is currently 500 acres. Half of the fire is about to jump some creeks, while the other half is located in rolling hills with a spotty, smoldering edge that will require a few days of work. The fire did start showing smokes later in the day as the weather improved, and the IC would expect the same thing to happen tomorrow if it is dry. IC ordered a crew for the fire, and the North Star crew will mobilize tomorrow afternoon.

Today we expected large growth of the fire. We received favorable conditions with rain. The only growth on the fire was on the SW corner towards the highway. It's approximately 1.5 miles at this point from the fire to the Alaska Highway. We had prepared for the fire to reach the highway. Crews worked on structure protection with fuel removal and assessments. Orders were placed and received by the fire for structure protection. A type 3 team was ordered and began to arrive and take over the fire. This will occur at 0800 tomorrow. State troopers and DOT assisted in the anticipated Alaska highway impact. Order have been placed for traffic flagging and control. Tok IA engines and helicopter assisted on the fire most of the day. Resources have been ordered and received to support the fire, enabling Tok's IA resources to return to IA focus.
