#140 Name: **Moore Creek** Cause: **Lightning** Admin: **L&W**

The fire made a significant run to the southwest due to high temps, low RHs, and high winds. Residents at a nearby mine reported that the fire was less than one mile from their camp. Detection aircraft N1010F, J-12 and Helitack with 212HL all responded from McGrath, while BD-134 and T-44 responded from Palmer. Helitack was able to evacuate two residents and two dogs from the mining camp, and J-12 deployed 8 jumpers who engaged in structure protection with the remaining residents. T-44 was unable to deploy retardant due to adverse terrain. After the fire front passed, jumpers were demobed with helicopter 212HL, and Helitack assumed control of the fire. Helitack will continue with mop-up operations, and more accurate mapping will be achieved. Demob is tentatively set for the evening of 6/19.
