222ME reports the fire to be 5% active, creeping, and smoldering following rain showers which occurred shortly after the fire was initially reported. 222ME also located a cabin and an outbuilding approximately 7 miles SW of the fire. Helicopter 212HL launched to assess another reported cabin, but due to time constraints was unable to locate it. The fire will be flown tomorrow to asses near by structures and whether or not point protection will be applied.

The Northstar crew replaced the load of SMJ's today. There was no acreage gain but still lots of smokes within 100 feet of the perimeter. The fire is currently 50% contained and the crew continued building sawline and securing the fire. A 0.5 acre spotfire 400 feet north of the main fire was secured today and should be 100% out tomorrow. Mop up is slow due to heavy fuels and spotty perimeter. Estimate control by 7/1.
