 Name: **Prospect Creek** Cause: Lightning

Transfer of command took place at 6/29 on 2200. Fire spread continued in all directions with running, backing and single tree torching observed. Although light winds, higher humidities, and lower temps moderated fire activity, extremely dry fuels supported fire spread. Areas of hardwoods previously burned in 2005 supported fire spread on south facing slopes. NE side of fire is .75 miles from the Dalton Highway and Pipeline corridor 4 miles north of Pump Station # 5.

Savage's Type II Team took control of the fire today. Crews and equipment continued line construction and hose lay installation in Divisions T,B and C, prepared Divisions T and P for burn operations and continued mop up on Divisions P (along the Parks Hwy) and A. Progress of equipment was hampered by the lack of a Thycol to shuttle fuel. Pilot cars continue to shuttle traffic through the fire area. The fire is now 40% contained.

The fire received a large amount of precipitation 6/29 AM due to a localized weather event. Because of the decrease in short term fire potential a decision was made this morning to separate the Yukon and Alaskan incident organizations and scale back to a monitoring response. Alaskan personnel received approval to burn slash piles at King City and began securing point protection equipment in preparation for a 6/30 demobilization. Remaining Yukon resources in Beaver Creek worked toward completion of the community protection plan.

**PNHJC8** Legal: 16N 36W 23 S Out Date:  
 #144 Owner: BLM Admin: AND-Anchorage District  
 Name: **Lime Hills** Cause: Lightning

35 acre slop over on the south side (Lime Village side) of the Stony River was called contained today after it was gridded 300' in. The most threatened structures in Lime Village and along the Stony River were prepped today. Fire was most active on the SE side, backing towards the east. Good visibility allowed an accurate map update.

 #140 Owner: STA Admin: L&W-Lands and Waters  
 Name: **Moore Creek** Cause: Lightning

Moderate fire behavior due to higher Rh's and lower temperatures with 15% of the perimeter active. Detection reports the NW flank was most active but with slow rate of spread. The SE flank grew only 10 acres, backing towards a creek. Will continue to monitor. The Yukon Crew was demobed in to McGrath 6/29.
