Fire is burning in a steep drainage littered with areas of heavy blowdown that require extra saw work. White Mountain T2IA is continuing to construct indirect line on the northern flank to contain this portion of fire and prevent spread onto Tetlin lands. Other divisions are being monitored and hotspotted as needed.

Northern most area of the fire was active including some group tree torching and active crowning in pockets of black spruce. Pioneer Peak worked on securing line from yesterday's indirect firing operation. Numerous snags and blowdown in the area are slowing progress. T2IA crews continued with direct line on the east flank working south towards the Eagle Trail fire scar. Another day of public interest along the Alaska Highway was experienced due to the well developed column.
