The fire was reported by Palmer 911 as an unattended 20' fire with no people or water on site. One forestry engine, Palmer FD, and Sutton FD responded. Upon arrival the fire was found to be 0.1 acres smoldering in hardwood leaf litter. Today's weather provided ample opportunity for fuels to dry. This prompted active smoldering, making areas of heat more visible to fire fighters which aided mop-up operations. Sporadic single tree torching was observed during today's operational shift. Initial approval has been given to the military to energize power lines and engage in contractor improvements, such as electrical surveys and road maintenance, on the south end of the fire area. Fire Bird Spike has been reduced to a staging area and Lions Spike, near the community of Pleasant Valley, is the primary spike camp exhibiting an increase in fire personal and morning operational briefings.
