Daily Report From: 08/04

400.0 Acreage On 08/04

HT20	Lat: 67:07:31.2	Status: S/U	Acres: 400.0	Option: FULL
	Lon: 146:57:24.0	Personnel: 12	Start Date: 8/4/13	Area: UYD
	Legal: 027N 004E 31 F	Out Date:		
#661	Owner: NCA	Admin: Venetie		
	Name: Crater Creek	Cause: Human		

This fire was first reported by a Venetie resident as a smoke approximately 20 miles north of town. The sighting was verified by Fort Yukon helicopter 361EH and was plotted in full protection. 12 Jumpers were deployed on the incident at 2013. They reported the fire to be 250-300 acres with a 50% active perimeter, 2 foot flame lengths, burning in brush, grass and tundra. No known structures were immediately threatened. Scoopers 264, 267, T-52 and ASM A4 supported the initial attack until 2400. Limited water resources and sloping terrain to 40% are expected to challenge suppression efforts and warrant additional resources during the next operational period. This fire area has received no recent precipitation.

The fire was reported by Houston Brush 9-1 as a 40 x 50 smoldering brush pile. One forestry engine, prevention, and other Houston fire apparatus responded to scene. Houston fire department had the fire contained and controlled at 0.1 acres upon forestry's arrival; houston personnel turned the fire over to forestry and departed the scene. Forestry personnel cold trailed the fire and left it in monitor status due to the depth of the burn. The cause of the fire was fireworks.

Fire personnel on Helicopter 361EH landed at the cabin site at 1715. The cabin site was under 98% cloud cover with moderate to heavy precipitation. At 2007 personnel on surveillance aircraft reported the fire being within 1/2 mile to the cabin and advised to get people on the site. Four smokejumpers were dropped at the cabin site for point protection but were unable to burnout due to the area receiving some precipitation. The fire and weather will be monitored by personnel on the ground.

A squad was flown to a cabin site, where they mopped up areas of heat threatening a structure. Boat patrol continued on the Chena River. Crews monitored and patrolled the burnout from 8/3, which appears to have been successful in securing the fire within the road system, south of the Impact Area. The fire slowly advanced in a few areas where military values continue to be threatened within the Impact Area. Division A was wrapped up and is prepared for a 8/5 demob. Air attack patrolled the fire area and found no additional areas of heat threatening containment. Suppression repair continued on the west side of the fire. Power will be restored to sites in and around the Impact Area on 8/5. A TFR remains in place.

In Division T, Arctic Village and Delta #2 made good progress mopping up 300 feet in east from H-30 with the assistance of one squad from Yukon. The rest of the Yukon crew, with the assistance of bucket helicopters, made good progress falling hazard trees and mopping up a 5 acre pocket of heat along the Tanana River near Cathedral Rapids. In Division W, Tanana Chiefs worked with Upper Tanana #2 securing and mopping up the slopover in the 2010 Eagle Trail fire scar and constructing two new helispots. A pocket of heat on the northern edge of the fire in Section 2 developed into a wind-driven crown fire that ran one and a half miles to the northeast onto the ridge above H-18. Air Attack was ordered, and one load of retardant was dropped above H-18 to keep the fire from cresting the ridge. Bucket helicopters were used to check the spread along the western flank of the run. The Tanana Chiefs crew returned to ICP to begin days off. They are expected to return to the fire on 8/8.

 Name: **Tetlin Jct Ridge** Cause: Lightning

NIROPS IR detected numerous pockets of heat along the northern and eastern edge of the fire. The fire showed some movement to the east on State lands down the Ladue River drainage. A dozer berm in the interior of the fire north of DP-2 continues to show heat, but poses no threat to containment. Aerial reconnaissance was not flown on the fire today due to higher priorities.
