The fire behavior was running, group torching, short crown runs and long range spotting. Burn out operations were implemented around major natural gas pipelines and substations and the Beluga power plant. Burn out operations were completed around powerlines and interties. The first Type 2 crew arrived. The plan for the next operational period is to keep the fire south of Shorty Creek and Viapan Lake, patrol and hold the newly burned line between Division X and Division A, patrol and mop up around structure in and around the perimeter, and identify possible spike camps within Division X and at the north end of Division A. A Type 2 team has been ordered.
