Strong winds produced active crown fire runs in spruce with single and group tree torching common around the perimeter. In Division A crews began burning from the fuel break west towards Funny River Road. In Division X dozers continued to work toward the southwest and the squad spiked at Coal Creek Lake continued constructing handline north to tie in with the dozer line. In Division H the fire backed into the Intertie powerline right-of-way where and IHC and smokejumpers went direct to contain the fire's western edge. Riparian areas in the southwest corner were assessed for containment potential. CL-215s and helicopter buckets continued to support suppression efforts in Divisions A and H.
