Several aircrafts reported a fire in the Big Lake area, this was corroborated by station 8-1 responders on another call. H-16973 one Forestry engine and an IA short squad responded. Air Attack and scoopers were also requested. Helitack arrived on scene and cancelled the scoopers, Air Attack continued to investigate reports of other fires in the area. Helitack began suppression and was joined by the short squad soon after. The Forestry engine provided logistical support and was released. H-16973 was released and the short squad will remain overnight on the fire.

Fire weather indices remain high, with extreme pre-season availability of black spruce stands. Continued strong winds and continuous black spruce produced active crown fire runs late in the burn period. Spotting was observed up to 1/2 mile ahead of the fire, crossing the Kenai River. Active suppression on these spots limited fire establishment north of the river. Crews in Division A worked to contain a spot over the fuel break and aerial resources worked to slow the advance of a spot over the Kenai River. Residents in the Funny River area remain under an evacuation order. The squad at Coal Creek Lake continued to work north to tie into the dozerline in Division X. In Division H Smokejumpers and an IHC crew continued direct line north to the division break. Dozers and crews worked south from the powerline toward Tustumena Lake. At Bear Creek smokejumpers and a crew mopped up around the subdivision and prepared to burn out around the Pipe Creek cabin.
