 Name: **Funny River** Cause: Human

Overcast skies and scattered rain showers throughout the fire area reduced fuels availability Thursday. Fuels under closed canopies continue to remain markedly dry. Ground moisture remains frozen 10 inches below surface feather moss in most Spruce stands. Crews are making good progress with the weather reprieve while utilizing Palm IR devices to ensure areas of heat are found and suppressed.

Helicopters 212HL and 16920, ASM B-7, T-262 and T-264 and firefighters mobilized to the fire. The helicopters were used to transport personnel. Firefighters utilized ground firing operations and the progressive hoselay along the military road to protect military assets. The fire is burning in tundra, black spruce, and hardwood mix. T-262 and T264 worked the fire with loads of water on the fire parallel to the two-track road. The fire was wind driven with intermittent crowning and torching with spotting in the northwest corner up to 500 yards. Firefighters will continue to burn along the road from the west to the east on 5/30. Updated acreage is 215 acres and additional resources will respond tomorrow.

## Monitor

Count: 18

Acres: 424.0

Acreage Change: 11.6

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
