The fire behavior consisted of creeping and smoldering. Due to the discovery of UXO on 06/04/14, the UXO protocol was activated. All resources disengaged from Military lands and began to scout fireline north of the Military/State boundary. Crews began to establish new spike camps outside of Military lands with the anticipation of constructing indirect fireline. Military EOD team was inserted to identify 4 potential UXO sites within proximity of 06/04/14 fireline and Helispot.
