Ligher winds and higher humidities allowed for more direct line construction and moderated fire activity. A/A, T-262 and T-264 worked the northern flank of the fire along with helicopter bucket operations. A load of smokejumpers responded to the Richardson Cleawater to do structure assesment. At this time, the fire remains south of the winter trail. In order to meet the strategic objectives of limiting fire growth to the north and avoid affecting communities and infrastructure an increase in staffing levels is planned to meet management objectives.
