Total Fires: 145
Total Acres: 4,298.40

Cause Summary

|                      | Acres: 4,292.3 | 6.0 |
|----------------------|               |     |
| Human Caused         | 143           |     |
| Lightning Caused     | 1             |     |
This fire was reported by a Canadian aircraft at approximately 2.5 acres. Zone aircraft N9011N flew a recon of the reported fire and surrounding area but found no smoke. The fire has been placed in monitor status at this time.

At 1924 MATCOM paged out a structure fire at mile 103 of the Old Richardson Hwy. Forestry, Glennrich VFD and other VFDs responded. Upon arrival, they found a wildland fire that had spread to a structure. The fire was quickly suppressed with minor damage to the structure.

E-631 responded to the report of a pair of abandoned campfires, the fires were contained controlled and called out.

A fire was reported to Tok Forestry by the Department of Transportation at MP 1234. Forestry dispatched helitack, first and second out engines, and two dozers. Air attack, and 3 tankers were ordered and worked the fire along the north side of the Alaska Highway. One CL-415 and the helicopter worked the south side highway. One load of jumpers responded. The Alaska Highway remains open with a pilot car guiding traffic.
 Caller reported a half acre fire spreading from a mulch pile near the trees. Two DOF engines, helitack and Prevention responded. On arrival personnel found a 0.1 acre fire, rank 1, smoldering in the hardwoods. The fire was declared contained and controlled and was placed in monitor status.

 DOF resources responded to report of an outside fire. On arrival reported fire was burning in grass, 0.1 ac no active perimeter. The fire was called contained, controlled and was placed in monitor status.

 Red flag conditions allowed a field burn to escape a landowner’s control. Helitack, engines, air attack, and tanker 260 were dispatched. The White Mountain IA2 crew was reassigned to the incident and assumed command. The scooper cooled enough of the fire to allow hose lays to be deployed around the perimeter. A squad and the crew worked with the engines to set-up the hose lays. The helicopter and helitack were released after two hours. Engines and a water tender were released at the end of shift. The need for the tender will be reconsidered in the morning. Berms are deep burning and may require additional work beyond the lanowners control. Containment is expected at the end of the next operational.

 Red flag conditions allowed a field burn to escape a landowner’s control. Helitack, engines, air attack, and tanker 260 were dispatched. The White Mountain IA2 crew was reassigned to the incident and assumed command. The scooper cooled enough of the fire to allow hose lays to be deployed around the perimeter. A squad and the crew worked with the engines to set-up the hose lays. The helicopter and helitack were released after two hours. Engines and a water tender were released at the end of shift. The need for the tender will be reconsidered in the morning. Berms are deep burning and may require additional work beyond the lanowners control. Containment is expected at the end of the next operational.

 DOF resources responded with local FD resources to reported fire on Farmers Loop. On arrival fire was 50’ x 50’ creeping. Helitack and second engine stood down, one engine and Prevention continued to the scene. The fire was called contained, controlled and out.
