Several callers reported seeing a grass fire on the south side of Mile 72.5 Sterling Highway. Prevention, DOF engine K-66, and H-212TH responded, as did several Central Emergency Services apparatus. Good Samaritans driving by the scene suppressed the fire using their water bottles before Forestry and CES arrived on-scene. Upon arrival, personnel searched the general area of Mile 72.5 until they discovered a 3' x 3' grass fire. The fire was placed in monitor status. Prevention ruled the cause as "equipment", but could not pinpoint the specific part of equipment that caused the fire.

Fire activity moderated due to weather. Using the NPS helicopter we installed one RAWS station, and performed maintenance on another RAWS station. The plan for tomorrow is to place a repeater in operation and one more RAWS station. Continue to monitor the fire for growth and direction of spread. Start structure protection on additional cabins. Will start moving the base of operation to the NPS station at Chisana.
