The fire was reported by Palmer 911 as a fire in the woods. Two Forestry engines, one Forestry Prevention, and Central FD responded. Upon arrival of Prevention they found three small spot fires at 0.1 acres smoldering in mixed hardwoods and grass. Personnel took action on the fire, containing, controlling, and placing it in monitor status. The cause of the fire is under investigation.

Air tankers worked for most of day boxing in the most threatened cabins with retardant. A crew was transported to the incident. Smoke jumpers worked on setting up hose lays and sprinklers assisted by the crew. A burn-out operation was done by the jumpers to improve structure protection. Resources needed to form a Type 3 incident were ordered. Hot shots and various overhead will arrive on 6/18. An additional shot crew is ordered for additional burnout operations and to allow the smoke jumpers to demobilize.

Resources on the fire utilized ASM A-4, T-260, T-47, T-52 and 2 National Guard Type 1 helicopters to limit fire spread on the north, west and east flanks of the fire. VFD engines provided structure protection for commercial/residential structures along the Sterling Highway. Cooper Creek Campground was evacuated during the morning shift and will remain closed to public use. Personnel continued to utilize aerial resources through the end of shift. A Type 2 short team has been ordered for the incident.

 Name: **Card Street** Cause: Human

Today, 5 hotshot crews began establishing control lines. Fire personnel continued mopping up around structures in the Kenai Keyes subdivision, Feuding Lane, Zenith Street and Card Street. Fire exhibited extreme behavior in the afternoon, crowning, running, and spotting towards the Skilak recreation area. Recreationalists were evacuated from the Skilak Loop area by USFWS law enforcement officers as the fire approached. A USFWS engine started the sprinklers at the Skilak Guard RAWS Station in anticipation of the flame front. An air tanker used retardant to secure the station. Fire continued its march east and jumped Skilak Loop Road. Fire behavior moderated as the winds diminished. ICP was established at Sterling Elementary.

Single tree torching was observed throughout the burn period on the southern flank of the fire. The fire is hung up in sloughs and riparian areas on the north side of the fire. Water scooping aircraft were used to help prevent spotting to the south as fire activity picked up in the afternoon. One type 2 crew was inserted into the fire and another arrived and is remaining overnight at staging. The fire lines held with less than 20 acres of additional growth. Change in fire size is due to more accurate mapping.

Even with continued hot and dry weather, there was minimal growth in the fire perimeter today. The fire exhibited some group torching and isolated short crown runs in the interior. Fire personnel continued to defend structures and advanced fireline around the north, east and south flanks. Water handling equipment and hose lays were deployed, and mop up continued to secure safety of structures. The IMT held a public meeting to inform local residents on fire status. Decrease in acreage to more accurate mapping.

Name: **Whitefish Lake 1**Cause: **Lightning**

Fire activity has intensified today due to low rh's, strong winds, and dry fuels in the area. Due to these combinations, the fire is extremely active and showing lots of resistance to bucket work and ground work. Fire behavior consists of creeping and smoldering in tundra and pockets of timber. The fire is mostly active in a spruce and hardwood mix on the west side, with single and group tree torching. There was a newly identified hotspot on the north line, inside the perimeter that became extremely active and is now a major concern for the fire. Personnel continued to suppress the interior problem areas with bucket work assistance by Helicopters 73HJ, 70NW, and 392NS. Plans for tomorrow consist of working the hot spot on the north side and securing the northern, interior perimeter along with multiple other interior hot spots.

 #311 Owner: Tribal Unit: AKVLN-Mendas Cha-ag Native Corporation
 Name: **Healy Lake 2** Cause: Lightning

This is a running and crowning, lightning started fire. With the large size, cabin protection was planned with smoke jumpers along Healy Lake. 8 jumpers were deployed to work one area along the lake. The fire was heading over the ridge and was looking to merge with fire 313. As of 6/17 @ 00:30, 512311 Healy Lake 2, has been called administratively out due to merging with 313, and reporting will now be on 512313 starting 6/17.
