McGrath residents reported smoke across the river from McGrath. H-16973 responded and reported the fire to be .75 acres flames not yet above the canopy. The helicopter began bucket work to knock the fire down. Two personnel were mobilized to the fire and reported it to be smoldering in hardwoods with winds 1-3 mph out of the northeast. Personnel will continue to suppress the fire throughout the evening.

 Name: **John Reek Creek** Cause: Lightning

The fire was reported by multiple locals in McGrath. T-10 was off McGrath enroute to a different fire and also called it in. It was reported as a lightning fire that had just started, burning in continuous black spruce with group tree torching. The fire was actively spotting, and had very little natural barriers around it. T-10 took action, along with T-101 out of McGrath and A-4 out of Galena. Helicopter 212HL responded with initial attack personnel, along with helicopter 16973 assisting with bucket work. Half of the Nikolai crew was mobilized, but due to lack of duty day on the aircraft the other half will have to be mobilized tomorrow.

A smoke was reported by a Forestry engine during their patrol. A half acre fire was located a short distance off the main road burning actively in black spruce. The engine crew worked to extinguish the flames. One dozer and a water tender assisted in suppressing the fire. Air attack and a retardant tanker were able to provide a full size up from the sky. Firefighters plan on full suppression by next fire operational period.

The fire was reported by detection aircraft 1010F as 60 acres, burning in tundra and black spruce with continuous fuels. The fire was located 3.5 miles south southwest of the town of Crooked Creek. Smoke Jumpers, A/A, and 2 tankers were requested to respond. There were no jumpers available in the state, and A/A and tankers were told to stand down for now. The Salt Lake City type 2 IA crew was mobilized into Crooked Creek to evaluate the situation before coming up with a suppression plan. The crew spent the evening reconning structures in the area, and putting together their plan. Tomorrow they will continue to do point protection for the town of Crooked Creek.

 Name: **Card Street** Cause: Human

Crews continued to secure control lines today in Division A and continued mopping up and patrolling around structures. Division D also continued mop up and worked on active fire in pockets of spruce in parts of the division. Division K continued to secure their control lines and continued working their extensive plumbing show of hose lays and completed and use that two miles of hose for heavy duty mop up. Operations is still considering another attempt to burn when the fuels dry out in a couple days to tie the control line to Skilak Lake. Structure protection continues with the complexities of the Wildland Urban Interface which requires the skill of experienced hand crews and with the evacuation lifted most residents have returned home. Better mapping puts the fire size at 7352 acres. Minimal Fire behavior today as the marine layer remained over the fire allowing for good humidity recovery overnight and also into the daytime as the sun was unable to break the cloud layer. Today's weather limited fire behavior to smoldering and creeping fire with an occasional single tree torching.

 Name: **Tanana Slough** Cause: Lightning

Docile fire behavior due to higher humidities and lower temperatures calming the fire down temporarily. Helicopter 0AW was borrowed for initial attack, detection and recon missions by Tok Area. Next shift's objectives are to secure the east flank of the fire. Allotments in the Billy Creek drainage and growth toward the Alaska highway become an immediate priority, if the fire becomes established across the slough.

Crews continued to make progress toward turn-back standards in all divisions and achieved 79% perimeter containment. High Rh aided mop-up efforts. Three IHCs and the National Guard Blackhawks were released today. The Mat-Su Borough continues to assess structure damage and a Disaster Assistance assessment will begin 6/22 after the evacuation order is lifted.

Name: **Chisana River 2** Cause: Lightning

The fire was moderately active today, making a push toward the north east consuming roughly 6000 acres. The moderate activity was due to precipitation over the fire vicinity. Small runs group torching and continuous backing front were observed today. We established structure protection around additional perimeter cabin, resupplied Chisana with supplies from fixed wing, and had successful mapping and recon mission. Tomorrow's mission includes more structure protection on permanent cabin, recon, preparation for a possible burnout, and a mapping mission.

The fire was flown by detection aircraft 1010F. The fire was reported to be 7500 acres, 75% active on perimeter, with 7-10 foot flames and continuous fuels. The fire appeared to be moving in direction of a cabin to the SE. The main portion of the fire had already moved past the cabin and it is currently protected by several creeks. Due to limited resources and higher priority fire no action was taken. The fire will remain in monitor status.
