 #628 Owner: Tribal Unit: AKVLN-The Kuskokwim Corporation  
 Name: **Red Devil** Cause: Lightning

The fire was reported at 0330 by a local resident of Red Devil to be ½ mile away from town, and being pushed towards them. All locals were contacted and aware of the fire, and had an evacuation plan set in place. By 0900 the fire had subsided, and was still the same distance away from the town. 2 personnel boated from Crooked Creek to assess the fire and determine what kind of action would be best suited to take place. J-09 responded from Fairbanks, and Helena T2IA and Chevak #2 were both mobilized into Red Devil. Upon arrival, it was determined that J-09 did not need to take action, and they were returned to McGrath. Later in the evening the winds switched out of their favor resulting in T-49, T-47 and BD-131 all responding from Palmer. The tankers dropped one load of retardant both on the south side of the village. No evacuation took place, and the fire will continue to be monitored throughout the night. Plans for tomorrow consist of all fire personnel providing structure protection throughout Red Devil.

The fire was active throughout the night, and by morning there was a voluntary evacuation for children and elderly in the town of Chuathbaluk. By evening the fire was under a west southwest wind, backing, flanking, and torching. The fire was approximately 2 miles away from town, and all fire personnel continued to secure a line around the town. J-01 assisted with efforts by supplying two loads of cargo into the town.

On 6/25/15 The Alaska Green Team took operational control of the fire. Due to smoke conditions a large area of the fire was not visible till late in the afternoon. Fire behavior was observed to be smoldering and creeping on the north side, single tree torching on the southern flanks. Late in the afternoon, group tree torching was observed. Dozers started working on re-establishing old fuel breaks on the ridge above Two Rivers School. The Roosevelt IHC began putting in saw lines from the dozer line into the Little Chena drainage. Plans for next operational period are: IHC's will continue saw lines and Type 2 crews will work to improve contingency lines. Dozers will continue re-establishing the fuel breaks and Type 2 crews will support the dozer operations. In Division 2 the structure branch: work will continue with structure protection and evaluation.

 Name: **Card Street** Cause: Human

Crews in all divisions continued their work today as they have and continue making headway in mop up, gridding, patrolling and securing all control lines. Fire behavior did pick up today as predicted today even with the cloud layer moving in. The forecast for tomorrow is for a 35% chance of wetting rain and this will result in minimal fire behavior and will again give firefighters a good opportunity to gain ground on mop up. With the weather predicted to be the same for the next few days crews will be able to tie the control lines together and continue mopping up and securing all control lines. This continued work will allow firefighters to meet their objectives in a timely manner. Mop up and patrolling around the structures continues Structure protection continues with the complexities of the Wildland Urban Interface. No other significant activity on the fire today. The fire size grew as a result of the burning operations and with another GPS today confirmed that the fire remains 8841 acres.

The fire was flown by H-392NS. They reported the fire to be 80 acres, in tundra and mixed hardwoods, 50% active, creeping and smoldering. The fire had west winds 5-10 miles an hour. The town of Tuluksak is seven miles away from the fire, but there are multiple water sources between it and the town so it is not considered threatened. The fire will remain in monitor status.
